REPORT REVIEW COMMITTEE

GUIDELINES FOR REVIEW

WORKSHOP PROCEEDINGS

THE NATIONAL ACADEMIES
Advisers to the Nation on Science, Engineering, and Medicine
A workshop proceedings consists of individual workshop presentations or papers, each of which is attributed to its presenter(s) or author(s). The document should include introductory material describing the event in a non-substantive manner (e.g., location, sponsorship, purpose) without drawing any inferences or conclusions or summarizing the discussions. The following questions may be used as a guide to formulating your comments.

1. Is the content of the paper clear and comprehensible?

2. Is the paper of satisfactory quality, relevant to the goals of the workshop, and appropriate for inclusion in these proceedings?
